Forward-Looking Statements

This Report and any exhibits to this Report may contain "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. The words "anticipate," "believe," "estimate," "expect," "plan," "intend," "will," "aim," "should," "could," "may," "continue to," "if," "growing," "projected," "potential," "likely," and similar expressions, as they relate to us, are intended to identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. All statements other than statements of historical fact included in this press release are forward-looking statements, including, but not limited to, statements regarding our financial results, condition and outlook; changes in our operating results; general market and economic conditions; our transformation progress; Net ARR Activity indicating potential annualized revenue impact; our continued focus on improving growth, quality and efficiency across our people, processes and technology; our strategy of continuing to drive value for clients and shareholders and positioning us for long-term success; expectations regarding the benefits of our permanent cost savings actions in 2021; our solid game plan for 2021; our belief that we are well positioned to continue our progress towards growth; and our projected financial performance for the full year 2021, including all statements made under the section captioned "2021 Outlook" within this release. In addition, all statements regarding the anticipated effects of the novel coronavirus ("COVID-19") pandemic and the responses thereto, including the pandemic's impact on general economic and market conditions, as well as on our business, customers, and markets, results of operations and financial condition and anticipated actions to be taken by management to sustain our business during the economic uncertainty caused by the pandemic and related governmental and business actions, as well as other statements that are not strictly historical in nature, are forward looking. These statements reflect management's current beliefs, assumptions and expectations and are subject to a number of factors that may cause actual results to differ materially. As with any projection or forecast, forward-looking statements are inherently susceptible to uncertainty and changes in circumstances. Our actual results may vary materially from those expressed or implied in our forward-looking statements. These forward-looking statements are also subject to the significant continuing impact of the COVID-19 pandemic on our business, operations, financial results and financial condition, which is dependent on developments which are highly uncertain and cannot be predicted.

Important factors and uncertainties that could cause our actual results to differ materially from those in our forward-looking statements include, but are not limited to: government appropriations and termination rights contained in our government contracts; our ability to renew commercial and government contracts, including contracts awarded through competitive bidding processes; our ability to recover capital and other investments in connection with our contracts; our reliance on third-party providers; our ability to deliver on our contractual obligations properly and on time; changes in interest in outsourced business process services; risk and impact of geopolitical events, natural disasters and other factors (such as pandemics, including coronavirus) in a particular country or region on our workforce, customers and vendors; claims of infringement of third-party intellectual property rights; our ability to estimate the scope of work or the costs of performance in our contracts; the loss of key senior management and our ability to attract and retain necessary technical personnel and qualified subcontractors; increases in the cost of telephone and data services or significant interruptions in such services; our failure to develop new service offerings and protect our intellectual property rights; our ability to modernize our information technology infrastructure and consolidate data centers; the failure to comply with laws relating to individually identifiable information and personal health information; the failure to comply with laws relating to processing certain financial transactions, including payment card transactions and debit or credit card transactions; breaches of our information systems or security systems or any service interruptions; our ability to comply with data security standards; changes in tax and other laws and regulations; risk and impact of potential goodwill and other asset impairments; our significant indebtedness; our ability to obtain adequate pricing for our services and to improve our cost structure; our ability to collect our receivables, including those for unbilled services; a decline in revenues from, or a loss of, or a reduction in business from or failure of significant clients; fluctuations in our non-recurring revenue; our failure to maintain a satisfactory credit rating; our ability to receive dividends or other payments from our subsidiaries; developments in various contingent liabilities that are not reflected on our balance sheet, including those arising as a result of being involved in a variety of claims, lawsuits, investigations and proceedings; conditions abroad, including local economics, political environments, fluctuating foreign currencies and shifting regulatory schemes; changes in government regulation and economic, strategic, political and social conditions; the outcome of litigation to which we are a party from time to time; changes in the volatility of our stock price and the risk of litigation following a decline in the price of our stock; the impact of the ongoing COVID-19 pandemic; and other factors that are set forth in the "Risk Factors" section, the "Legal Proceedings" section, the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section and other sections in our Annual Reports on Form 10-K, as well as in our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K filed with or furnished to the Securities and Exchange Commission. Any forward-looking statements made by us in this release speak only as of the date on

which they are made. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements, whether as a result of new information, subsequent events or otherwise.

- Adjusted EBITDA margin improved year-over-year driven by business mix and efficient execution.
- Adjusted Free Cash Flow conversion above top-end of initial guidance.
- Strong New Business and revenue retention activity:
 - FY 2020 Total Contract Value (TCV) new business signings of \$1,934M, an increase of 94% vs FY 2019.
 - FY 2020 Annual Recurring Revenue (ARR) signings of \$353M, an increase of 26% vs FY 2019.

FLORHAM PARK, NJ, February 18, 2021 - Conduent (NASDAQ: CNDT), a business process services and solutions company, today announced its fourth quarter and full year 2020 financial results.

Cliff Skelton, Conduent CEO, stated "Despite a challenging macro environment, the team delivered on our financial commitments, met our clients' needs and strengthened the operational foundation of our business. We continue to focus on improving growth, quality and efficiency by leveraging improvements across our people, processes and technology environments. During 2020, we meaningfully improved both client retention and sales performance, overachieving on our initial sales goal and delivering 94% new business signings growth compared with 2019. We also added talent to the organization and enhanced client confidence within the year. Through the dedicated efforts of 63,000 Conduent associates, clients have rewarded us with expanded relationships, which is strong evidence that our

strategy is working. While we have more hard work ahead of us, we are convinced that we will continue to drive value for our stakeholders and position Conduent for long-term success."

Q4 and Full Year 2020 Performance Commentary

Revenue for Q4 2020 compared with Q4 2019 was (4.0)% lower primarily due to prior lost business and the net COVID-19 impact, partially offset by new business ramp. COVID-19 impacts were approximately \$(39)M of revenue in the quarter. The Commercial and Transportation business declines were driven primarily by COVID-19, whereas the Government business growth was driven by COVID-19.

Additional highlights from Q4 2020 include strong sales performance with \$519M in new business signings, a 148% increase over Q4 2019.

Full Year 2020 adjusted revenue^(1,2) compared with FY 2019 was (6.0)% lower primarily driven by net COVID-19 impacts and prior lost business. COVID-19 impacted revenue by approximately \$(85)M in the year. Commercial and Transportation declines were primarily driven by COVID-19. The Government segment growth was driven by COVID-19, partially offset by a legacy contract loss.

Additional highlights from FY 2020 include strong sales performance with Total Contract Value of new business signings of \$1,934M, up 94% year-over-year.

Additional 2020 Performance Highlights

Conduent continued to focus on Growth, Quality and Efficiency, achieving significant operational, client and associate-focused milestones throughout 2020, including:

- Transitioned 32,000 associates to work-from-home at the peak of COVID-19, while meeting client service delivery requirements.
- Strengthened talent & culture with associate engagement index up 8 percentage points year over year.
- Opened a new global IT command center representing a significant enhancement to service quality for clients globally.
- Established a global shared service operation, driving efficiency improvements.
- Successfully migrated several data centers leading to system upgrades and security enhancements.
- Continued to improve our client satisfaction metric for the second year in a row, with significant improvement in client Net Promoter Scores.

Brian Webb-Walsh, CFO, stated "We performed well in 2020, with results at or exceeding the top-end of the initial guidance ranges that we provided in February 2020. Our efficiency improvements positively impacted margins. Adjusted Free Cash Flow was particularly strong for 2020 and we ended the year with a strong balance sheet. We remain confident in our 2021 game plan and the progress we are making in positioning the company for top line growth."

2021 Outlook

	FY 2020 Actuals	FY 2021 Outlook

Non-GAAP Measures

We have reported our financial results in accordance with U.S. generally accepted accounting principles (GAAP). In addition, we have discussed our financial results using non-GAAP measures. We believe these non-GAAP measures allow investors to better understand the trends in our business and to better understand and compare our results. Accordingly, we believe it is necessary to adjust several reported amounts, determined in accordance with U.S. GAAP, to exclude the effects of certain items as well as their related tax effects. Management believes that these non-GAAP financial measures provide an additional means of analyzing the results of the current period against the corresponding prior period. These non-GAAP financial measures should be viewed in addition to, and not as a substitute for, our reported results prepared in accordance with U.S. GAAP. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable U.S. GAAP measures and should be read only in conjunction with our Consolidated Financial Statements prepared in accordance with U.S. GAAP. Our management regularly uses supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions, and providing such non-GAAP financial measures to investors allows for a further level of transparency as to how management reviews and evaluates our business results and trends. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. Compensation of our executives is based in part on the performance of our business based on certain non-GAAP measures. Refer to the "Non-GAAP Financial Measures" section attached to this release for a discussion of these non-GAAP measures and their reconciliation to the reported U.S. GAAP measures.

Forward-Looking Statements

This release and any attachments to this release may contain "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. The words "anticipate," "believe," "estimate," "expect," "plan," "intend," "will," "aim," "should," "could," "may," "continue to," "if," "growing," "projected," "potential," "likely," and similar expressions, as they relate to us, are intended to identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. All statements other than statements of historical fact included in this press release are forward-looking statements, including, but not limited to, statements regarding our financial results, condition and outlook; changes in our operating results; general market and economic conditions; our transformation progress; Net ARR Activity indicating potential annualized revenue impact; our continued focus on improving growth, quality and efficiency across our people, processes and technology; our strategy of continuing to drive value for clients and shareholders and positioning us for long-term success; expectations regarding the benefits of our permanent cost savings actions in 2021; our solid game plan for 2021; our belief that we are well positioned to continue our progress towards growth; and our projected financial performance for the full year 2021, including all statements made under the section captioned "2021 Outlook" within this release. In addition, all statements regarding the anticipated effects of the novel coronavirus ("COVID-19") pandemic and the responses thereto, including the pandemic's impact on general economic and market conditions, as well as on our business, customers, and markets, results of operations and financial condition and anticipated actions to be taken by management to sustain our business during the economic uncertainty caused by the pandemic and related governmental and business actions, as well as other statements that are not strictly historical in nature, are forward looking. These statements reflect management's current beliefs, assumptions and expectations and are subject to a number of factors that may cause actual results to differ materially. As with any projection or forecast, forward-looking statements are inherently susceptible to uncertainty and changes in circumstances. Our actual results may vary materially from those expressed or implied in our forward-looking statements. These forward-looking statements are also subject to the significant continuing impact of the COVID-19 pandemic on our business, operations, financial results and financial condition, which is dependent on developments which are highly uncertain and cannot be predicted.

Important factors and uncertainties that could cause our actual results to differ materially from those in our forward-looking statements include, but are not limited to: government appropriations and termination rights contained in our government contracts; our ability to renew commercial and government contracts, including contracts awarded through competitive bidding processes; our ability to recover capital and other investments in connection with our contracts; our reliance on third-party providers; our ability to deliver on our contractual obligations properly and on time; changes in interest in outsourced business process services; risk and impact of geopolitical events, natural disasters and other factors (such as

pandemics, including coronavirus) in a particular country or region on our workforce, customers and vendors; claims of infringement of third-party intellectual property rights; our ability to estimate the scope of work or the costs of performance in our contracts; the loss of key senior management and our ability to attract and retain necessary technical personnel and qualified subcontractors; increases in the cost of telephone and data services or significant interruptions in such services; our failure to develop new service offerings and protect our intellectual property rights; our ability to modernize our information technology infrastructure and consolidate data centers; the failure to comply with laws relating to individually identifiable information and personal health information; the failure to comply with laws relating to processing certain financial transactions, including payment card transactions and debit or credit card transactions; breaches of our information systems or security systems or any service interruptions; our ability to comply with data security standards; changes in tax and other laws and regulations; risk and impact of potential goodwill and other asset impairments; our significant indebtedness; our ability to obtain adequate pricing for our services and to improve our cost structure; our ability to collect our receivables, including those for unbilled services; a decline in revenues from, or a loss of, or a reduction in business from or failure of significant clients; fluctuations in our non-recurring revenue; our failure to maintain a satisfactory credit rating; our ability to receive dividends or other payments from our subsidiaries; developments in various contingent liabilities that are not reflected on our balance sheet, including those arising as a result of being involved in a variety of claims, lawsuits, investigations and proceedings; conditions abroad, including local economics, political environments, fluctuating foreign currencies and shifting regulatory schemes; changes in government regulation and economic, strategic, political and social conditions; the outcome of litigation to which we are a party from time to time; changes in the volatility of our stock price and the risk of litigation following a decline in the price of our stock; the impact of the ongoing COVID-19 pandemic; and other factors that are set forth in the "Risk Factors" section, the "Legal Proceedings" section, the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section and other sections in our Annual Reports on Form 10-K, as well as in our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K filed with or furnished to the Securities and Exchange Commission. Any forward-looking statements made by us in this release speak only as of the date on which they are made. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements, whether as a result of new information, subsequent events or otherwise.

Non-GAAP Financial Measures

We have reported our financial results in accordance with U.S. GAAP. In addition, we have discussed our results using non-GAAP measures.

We believe these non-GAAP measures allow investors to better understand the trends in our business and to better understand and compare our results. Accordingly, we believe it is necessary to adjust several reported amounts, determined in accordance with U.S. GAAP, to exclude the effects of certain items as well as their related tax effects. Management believes that these non-GAAP financial measures provide an additional means of analyzing the results of the current period against the corresponding prior period. However, these non-GAAP financial measures should be viewed in addition to, and not as a substitute for, the Company's reported results prepared in accordance with U.S. GAAP. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable U.S. GAAP measures and should be read only in conjunction with our Consolidated Financial Statements prepared in accordance with U.S. GAAP. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions, and providing such non-GAAP financial measures to investors allows for a further level of transparency as to how management reviews and evaluates our business results and trends. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. Compensation of our executives is based in part on the performance of our business based on certain non-GAAP measures.

A reconciliation of the non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with U.S. GAAP are provided below.

These reconciliations also include the income tax effects for our non-GAAP performance measures in total, to the extent applicable. The income tax effects are calculated under the same accounting principles as applied to our reported pre-tax performance measures under ASC 740, which employs an annual effective tax rate method. The noted income tax effect for our non-GAAP performance measures is effectively the difference in income taxes for reported and adjusted pre-tax income calculated under the annual effective tax rate method. The tax effect of the non-GAAP adjustments was calculated based upon evaluation of the statutory tax treatment and the applicable statutory tax rate in the jurisdictions in which such charges were incurred.

Adjusted Net Income (Loss), Adjusted Diluted Earnings per Share, Adjusted Weighted Average Common Shares Outstanding, Adjusted Effective Tax and Adjusted Effective Tax Rate

We make adjustments to Income (Loss) before Income Taxes for the following items, as applicable to the particular financial measure, for the purpose of calculating Adjusted Net Income (Loss), Adjusted Diluted Earnings per Share, Adjusted Weighted Average Common Shares Outstanding, Adjusted Effective Tax and Adjusted Effective Tax Rate:

- Amortization of acquired intangible assets. The amortization of acquired intangible assets is driven by acquisition activity, which can vary in size, nature and timing as compared to other companies within our industry and from period to period.
- Restructuring and related costs. Restructuring and related costs include restructuring and asset impairment charges as well as costs associated with our strategic transformation program.
- Goodwill impairment. This represents Goodwill impairment charges related to the unanticipated losses of certain customer contracts, lower potential future volumes and lower than expected new customer contracts for all reporting units.
- (Gain) loss on divestitures and transaction costs. Represents (gain) loss on divested businesses and transaction costs.
- Litigation costs (recoveries), net. Litigation costs (recoveries), represents provisions for various matters subject to litigation.
- Other charge (credit). This comprises other insignificant (income) associated with providing transition services on the California Medicaid contract loss and other adjustments.
- Divestitures. Revenue/(Income) loss from divestitures.

The Company provides adjusted net income and adjusted EPS financial measures to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over different reporting periods, by adjusting for certain items which may be recurring or non-recurring and which in our view do not necessarily reflect ongoing performance. We also internally use these measures to assess our operating performance, both absolutely and in comparison to other companies, and in evaluating or making selected compensation decisions.

Management believes that the adjusted effective tax rate, provided as supplemental information, facilitates a comparison by investors of our actual effective tax rate with an adjusted effective tax rate which reflects the impact of the items which are excluded in providing adjusted net income and certain other identified items, and may provide added insight into our underlying business results and how effective tax rates impact our ongoing business.

Adjusted Revenue, Adjusted Operating Income and Adjusted Operating Margin

We make adjustments to Revenue, Costs and Expenses and Operating Margin, as applicable, for the following items, for the purpose of calculating Adjusted Revenue, Adjusted Operating Income and Adjusted Operating Margin:

- Amortization of acquired intangible assets.
- Restructuring and related costs.
- Interest expense. Interest expense includes interest on long-term debt and amortization of debt issuance costs.
- Goodwill impairment.
- (Gain) loss on divestitures and transaction costs.
- Litigation costs (recoveries), net.
- Other charge (credit).
- Divestitures.

We provide our investors with adjusted revenue, adjusted operating income and adjusted operating margin information, as supplemental information, because we believe it offers added insight, by itself and for comparability between periods, by adjusting for certain non-cash items as well as certain other identified items which we do not believe are indicative of our ongoing business, and may also provide added insight on trends in our ongoing business.

We provide adjusted revenues as supplemental information to our presentation of reported GAAP revenue in order to facilitate additional information to our investors concerning period-to-period comparisons reflecting the impact of our 2019 divestiture.

Adjusted EBITDA and EBITDA Margin

We use Adjusted EBITDA and Adjusted EBITDA Margin as an additional way of assessing certain aspects of our operations that, when viewed with the GAAP results and the accompanying reconciliations to corresponding GAAP financial measures, provide a more complete understanding of our on-going business. Adjusted EBITDA represents income (loss) before interest, income taxes, depreciation and amortization and contract inducement amortization adjusted for the following items. Adjusted EBITDA margin is Adjusted EBITDA divided by revenue or adjusted revenue, as applicable.

- Restructuring and related costs.
- Goodwill impairment.
- (Gain) loss on divestitures and transaction costs.
- Litigation costs (recoveries), net.
- Other charge (credit).
- Divestitures.

Adjusted EBITDA is not intended to represent cash flows from operations, operating income (loss) or net income (loss) as defined by U.S. GAAP as indicators of operating performances. Management cautions that amounts presented in accordance with Conduent's definition of Adjusted EBITDA and Adjusted EBITDA margin may not be comparable to similar measures disclosed by other companies because not all companies calculate Adjusted EBITDA and Adjusted EBITDA margin in the same manner.

Free Cash Flow

Free Cash Flow is defined as cash flows from operating activities as reported on the consolidated statement of cash flows, less cost of additions to land, buildings and equipment, cost of additions to internal use software, payments related to divestitures and proceeds from sales of land, buildings and equipment. We use the non-GAAP measure of Free Cash Flow as a criterion of liquidity and performance-based components of employee compensation. We use Free Cash Flow as a measure of liquidity to determine amounts we can reinvest in our core businesses, such as amounts available to make acquisitions and invest in land, buildings and equipment and internal use software, after required payments on debt. In order to provide a meaningful basis for comparison, we are providing information with respect to our Free Cash Flow reconciled to cash flow provided by operating activities, which we believe to be the most directly comparable measure under U.S. GAAP. As of March 31, 2020 the company is no longer backing out vendor financed leases from Free Cash Flow and has updated all historical numbers to reflect the change.

Adjusted Free Cash Flow

Adjusted free cash flow is defined as free cash flow from above plus deferred compensation payments, transaction costs, costs related to the Texas litigation, and certain other identified adjustments. We use adjusted free cash flow, in addition to free cash flow, to provide supplemental information to our investors concerning our ability to generate cash from our ongoing operating activities; by excluding certain deferred compensation costs and our one-time Texas settlement costs, as well as transaction costs and transaction cost tax benefit related to acquisitions and divestitures, we believe we provide useful additional information to our investors to help them further understand our ability to generate cash period-over-period as well as added information on comparability to our competitors. Such as with free cash flow information, as so adjusted, it is specifically not intended to provide amounts available for discretionary spending. We have added certain adjustments to account for items which we do not believe reflect our core business or operating performance, and we computed all periods with such adjusted costs.

Constant Currency

To better understand trends in our business, we believe that it is helpful to adjust revenue to exclude the impact of changes in the translation of foreign currencies into U.S. Dollars. We refer to this adjusted revenue as "constant currency." Currency impact is the difference between actual growth rates and constant currency growth rates and is calculated by translating current period activity in local currency using the comparable prior period's currency translation rate.

Non-GAAP Outlook

In providing the outlook for adjusted EBITDA we exclude certain items which are otherwise included in determining the comparable GAAP financial measure. A description of the adjustments which historically have been applicable in determining adjusted EBITDA are reflected in the tables below. We are providing such outlook only on a non-GAAP basis because the Company is unable to predict with reasonable certainty the totality or ultimate outcome or occurrence of these adjustments for the forward-looking period, which can be dependent on future events that may not be reliably predicted. Based on past reported results, where one or more of these items have been applicable, such excluded items could be material, individually or in the aggregate, to reported results. We have provided an outlook for revenue on a constant currency basis due to the inability to accurately predict foreign currency impact on revenues. Outlook for Free Cash Flow and Adjusted Free Cash Flow is provided as a factor of expected adjusted EBITDA, see above. For the same reason, we are unable to provide GAAP expected adjusted tax rate, which adjusts for our non-GAAP adjustments.

Forward-Looking Statements

This document contains "forward-looking statements" as defined in the Private Securities Litigation Reform Act of 1995. The words "anticipate," "believe," "estimate," "expect," "plan," "intend," "will," "aim," "should," "could," "may," "continue to," "if," "growing," "projected," "potential," "likely," and similar expressions, as they relate to us, are intended to identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. All statements other than statements of historical fact included in this press release are forward-looking statements, including, but not limited to, statements regarding our financial results, condition and outlook; changes in our operating results; general market and economic conditions; our transformation progress; Net ARR Activity indicating potential annualized revenue impact; our continued focus on improving growth, quality and efficiency across our people, processes and technology; our strategy of continuing to drive value for clients and shareholders and positioning ourselves for long-term success; expectations regarding the benefits of our permanent cost savings actions in 2021; our solid game plan for 2021; our belief that we are well positioned to continue our progress towards growth; and our projected financial performance for the full year 2021, including all statements made under the section captioned "2021 Outlook" within this release. In addition, all statements regarding the anticipated effects of the novel coronavirus ("COVID-19") pandemic and the responses thereto, including the pandemic's impact on general economic and market conditions, as well as on our business, customers, and markets, results of operations and financial condition and anticipated actions to be taken by management to sustain our business during the economic uncertainty caused by the pandemic and related governmental and business actions, as well as other statements that are not strictly historical in nature, are forward looking. These statements reflect management's current beliefs, assumptions and expectations and are subject to a number of factors that may cause actual results to differ materially. As with any projection or forecast, forward-looking statements are inherently susceptible to uncertainty and changes in circumstances. Our actual results may vary materially from those expressed or implied in our forward-looking statements. These forward-looking statements are also subject to the significant continuing impact of the COVID-19 pandemic on our business, operations, financial results and financial condition, which is dependent on developments which are highly uncertain and cannot be predicted.

Important factors and uncertainties that could cause our actual results to differ materially from those in our forward-looking statements include, but are not limited to: government appropriations and termination rights contained in our government contracts; our ability to renew commercial and government contracts, including contracts awarded through competitive bidding processes; our ability to recover capital and other investments in connection with our contracts; our reliance on third-party providers; our ability to deliver on our contractual obligations properly and on time; changes in interest in outsourced business process services; risk and impact of geopolitical events, natural disasters and other factors (such as pandemics, including coronavirus) in a particular country or region on our workforce, customers and vendors; claims of infringement of third-party intellectual property rights; our ability to estimate the scope of work or the costs of performance in our contracts; the loss of key senior management and our ability to attract and retain necessary technical personnel and qualified subcontractors; increases in the cost of telephone and data services or significant interruptions in such services; our failure to develop new service offerings and protect our intellectual property rights; our ability to modernize our information technology infrastructure and consolidate data centers; the failure to comply with laws relating to individually identifiable information and personal health information; the failure to comply with laws relating to processing certain financial transactions, including payment card transactions and debit or credit card transactions; breaches of our information systems or security systems or any service interruption; our inability to comply with data security standards; changes in tax and other laws and regulations; risk and impact of potential goodwill and other asset impairments; our significant indebtedness; our ability to obtain adequate pricing for our services and to improve our cost structure; our ability to collect our receivables, including those for unbilled services; decline in revenues from, or a loss of, or a reduction in business from or failure of significant clients; fluctuations in our non-recurring revenue; our failure to maintain a satisfactory credit rating; our ability to receive dividends or other payments from our subsidiaries; developments in various contingent liabilities that are not reflected on our balance sheet, including those arising as a result of being involved in a variety of claims, lawsuits, investigations and proceedings; conditions abroad, including local economic and political environments, fluctuating foreign currencies and shifting regulatory schemes; changes in government regulation and economic, strategic, political and social conditions; the outcome of litigation to which we are a party from time to time; changes in the volatility of our stock price and the risk of litigation following a decline in the price of our stock; the impact of the ongoing COVID-19 pandemic; and other factors that are set forth in the "Risk Factors" section, the "Legal Proceedings" section, the "Management's Discussion and Analysis of Financial Condition and Results of Operations" section and other sections in our Annual Reports on Form 10-K, as well as in our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K filed with or furnished to the Securities and Exchange Commission. Any forward-looking statements made by us in this release speak only as of the date on which they are made. We are under no obligation to, and expressly disclaim any obligation to, update or alter our forward-looking statements, whether as a result of new information, subsequent events or otherwise.

Cautionary Statements

Non-GAAP Financial Measures

We have reported our financial results in accordance with U.S. generally accepted accounting principles (GAAP). In addition, we have discussed our financial results using non-GAAP measures. We believe these non-GAAP measures allow investors to better understand the trends in our business and to better understand and compare our results. Accordingly, we believe it is necessary to adjust several reported amounts, determined in accordance with GAAP, to exclude the effects of certain items as well as their related tax effects. Management believes that these non-GAAP financial measures provide an additional means of analyzing the results of the current period against the corresponding prior period. However, these non-GAAP financial measures should be viewed in addition to, and not as a substitute for, our reported results prepared in accordance with U.S. GAAP. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable U.S. GAAP measures and should be read only in conjunction with our Consolidated Financial Statements prepared in accordance with U.S. GAAP. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions, and providing such non-GAAP financial measures to investors allows for a further level of transparency as to how management reviews and evaluates our business results and trends. These non-GAAP measures are not the primary factors management uses in planning for and forecasting future periods. Compensation of our executives is based in part on the performance of our business based on certain of these non-GAAP measures.

Sales Metrics

TCV Signings (incl. ARR + NRR)

Cumulative Pipeline

New Business (ARR + NRR Breakdown)

Implied New Business Avg. Contract Length

Definitions

New Business Total Contract Value (TCV): Estimated total future revenues from contracts signed during the year related to new logo, new service line or expansion with existing customers.

New Business Non-Recurring Revenue (NRR) metric measures the non-recurring revenue for any new business signing, includes:

- i. Signing value of any contract with term less than 12 months
- ii. Signing value of project based revenue, not expected to continue long term

New Business Annual Recurring Revenue (ARR) metric measures the revenue from recurring services provided to the client for any new business signing. ARR represents the recurring services provided to a customer with the opportunity for renewal at the end of the contract term. The calculation ARR is (Total Contract Value less Non-Recurring Revenue) divided by the Contract Term.

Renewal TCV Signings: Estimated total future revenues from contracts signed during the year related to renewals.

Renewal Signings Annual Recurring Revenue (ARR): metric measures the revenue from recurring services provided to the client for any renewal signing. ARR represents the recurring services provided to a customer with the opportunity for renewal at the end of the contract term. The calculation ARR is (Total Contract Value less Non-Recurring Revenue) divided by the Contract Term.

Net ARR Activity: Projected Annual Recurring Revenue for contracts signed in the prior 12 months, less the annualized impact of any client losses, contractual volume and price changes, and other known impacts for which the company was notified in that same time period, which could positively or negatively impact results. The metric annualizes the net impact to revenue. Timing of revenue impact varies and may not be realized within the forward 12-month timeframe. The metric is for indicative purposes only. This metric excludes COVID-related volume impacts and non recurring revenue signings. This metric is not indicative of any specific 12 month timeframe.

Total New Business Pipeline (Cumulative Pipeline): TCV pipeline of deals in all sell stages. Extends past next 12 month period to include total pipeline. Excludes the impact of divested business as required.

Implied New Business Average Contract Length: $(\text{New business TCV} - \text{New business NRR}) / \text{New business ARR} = \text{Implied New Business Average Contract Length}$

Non-GAAP Financial Measures

Non-GAAP Financial Measures

We have reported our financial results in accordance with U.S. generally accepted accounting principles (GAAP). In addition, we have discussed our financial results using the non-GAAP measures. We believe that GAAP measures allow investors to better understand the trends in our business and to better understand and compare our results. Accordingly, we believe it is necessary to adjust several reported amounts, determined in accordance with U.S. GAAP, to exclude the effects of certain items as well as their related tax effects. Management believes that these non-GAAP financial measures provide an additional means of analyzing the current period against the corresponding prior period. However, these non-GAAP financial measures should be viewed in addition to, and not as a substitute for, the Company's reported results prepared in accordance with U.S. GAAP. Our non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable U.S. GAAP measures and should be read only in conjunction with our Consolidated Financial Statements prepared in accordance with U.S. GAAP. Our management regularly uses our supplemental non-GAAP financial measures internally to understand, manage and evaluate our business and make operating decisions, and providing such non-GAAP financial measures to investors allows for a further level of transparency as to how management reviews and evaluates our business results and trends. These non-GAAP measures are among the primary factors management uses in planning for and forecasting future periods. Compensation of our executives is based in part on the performance of our business based on certain of these non-GAAP measures.

A reconciliation of the following non-GAAP financial measures to the most directly comparable financial measures calculated and presented in accordance with U.S. GAAP are provided below.

These reconciliations also include the income tax effects for our non-GAAP performance measures in total, to the extent applicable. The income tax effects are calculated under the same accounting principles as our reported pre-tax performance measures under ASC 740, which employs an annual effective tax rate method. The noted income tax effect for our non-GAAP performance measures is effectively the difference between the income taxes for reported and adjusted pre-tax income calculated under the annual effective tax rate method. The tax effect of the non-GAAP adjustments was calculated based upon evaluation of the statutory tax treatment and applicable statutory tax rate in the jurisdictions in which such charges were incurred.

Adjusted Net Income (Loss), Adjusted Earnings per Share and Adjusted Effective Tax Rate.

We make adjustments to Income (Loss) before Income Taxes for the following items as applicable to the particular measure, for the purpose of calculating Adjusted Revenue, Adjusted Net Income (Loss), Adjusted Earnings per Share and Adjusted Effective Tax Rate:

- Amortization of acquired intangible assets. The amortization of acquired intangible assets is driven by acquisition activity, which can vary in size, nature and timing as compared to other companies within our industry and from period to period.
- Restructuring and related costs. Restructuring and related costs include restructuring and asset impairment charges as well as costs associated with our strategic transformation program.
- Goodwill impairment. This represents Goodwill impairment charges related to the unanticipated losses of certain customer contracts, lower potential future volumes and lower than expected new customer contracts at all reporting units.
- (Gain) loss on divestitures and transaction costs. Represents (gain) loss on divested businesses and transaction costs.
- Litigation costs (recoveries), net. Litigation costs (recoveries), net represents provisions for various matters subject to litigation.
- Other charge (credit). This comprises other insignificant (income) associated with providing transition services on the California Medicaid contract loss and other adjustments.
- Divestitures. (Revenue) / (Income) loss from divestitures.

The Company provides adjusted net income and adjusted EPS financial measures to assist our investors in evaluating our ongoing operating performance for the current reporting period and, where provided, over reporting periods, by adjusting for certain items which may be recurring or non-recurring and which in our view do not necessarily reflect ongoing performance. We also internally use these measures to assess our performance, both absolutely and in comparison to other companies, and in evaluating or making selected compensation decisions.

Management believes that adjusted effective tax rate, provided as supplemental information, facilitates a comparison by investors of our actual effective tax rate with an adjusted effective tax rate which reflects the items which are excluded in providing adjusted net income and certain other identified items, and may provide added insight into our underlying business results and how effective tax rates impact our ongoing performance.

Non-GAAP Financial Measures

Adjusted Revenue, Adjusted Operating Income and Adjusted Operating Margin.

We make adjustments to Revenue, Costs and Expenses and Margin for the following items (as defined above), for the purpose of calculating Adjusted Revenue, Adjusted Operating Income and Adjusted Operating Margin:

- Amortization of acquired intangible assets.
- Restructuring and related costs.
- Interest expense. Interest expense includes interest on long-term debt and amortization of debt issuance costs.
- Goodwill impairment.
- (Gain) loss on divestitures and transaction costs.
- Litigation costs (recoveries), net.
- Other charge (credit).
- Divestitures.

We provide our investors with adjusted revenue, adjusted operating income and adjusted operating margin information, as supplemental information, because we believe it offers added insight, by itself and for comparability between periods, by adjusting for certain non-cash items as well as certain other identified items which we do not believe are indicative of our ongoing business, and may also provide added insight on trends in our ongoing business.

We provide adjusted revenues as supplemental information to our presentation of reported GAAP revenue in order to facilitate additional information to our investors concerning period-to-period comparisons reflecting the impact of our divestitures.

Non-GAAP Financial Measures

Consolidated Adjusted EBITDA and EBITDA Margin

We use Adjusted EBITDA and Adjusted EBITDA Margin as an additional way of assessing certain aspects of our operations that, when viewed with the U.S. GAAP results and the accompanying reconciliations to corresponding U.S. GAAP financial measures, provide a more complete understanding of our on-going business. Adjusted EBITDA represents Income (loss) before Interest, Income Taxes, Depreciation and Amortization and Contract Inducement Amortization adjusted for the following items (which are defined above). Adjusted EBITDA margin is Adjusted EBITDA divided by revenue or adjusted revenue, as applicable:

- Restructuring and related costs.
- Goodwill impairment.
- (Gain) loss on divestitures and transaction costs.
- Litigation costs (recoveries), net.
- Other charge (credit).
- Divestitures.

Adjusted EBITDA is not intended to represent cash flows from operations, operating income (loss) or net income (loss) as defined by U.S. GAAP as indicators of operating performance. Management cautions that amounts presented in accordance with Conduent's definition of Adjusted EBITDA and Adjusted EBITDA Margin may not be comparable to similar measures disclosed by other companies because not all companies calculate Adjusted EBITDA and EBITDA Margin in the same manner.

Non-GAAP Financial Measures

Free Cash Flow

Free Cash Flow is defined as cash flows from operating activities as reported on the consolidated statement of cash flows, less cost of additions to land, buildings and equipment, cost of additions to internal use software, payments related to divestitures and proceeds from sales of land, buildings and equipment. We use the non-GAAP measure of Free Cash Flow as a criterion of liquidity and performance-based components of employee compensation. We use Free Cash Flow as a measure of liquidity to determine amounts we can reinvest in our core businesses, such as amounts available to make acquisitions and invest in land, buildings and equipment and internal use software, after required payments on debt. In order to provide a meaningful basis for comparison, we are providing information with respect to our Free Cash Flow reconciled to cash flow provided by operating activities, which we believe to be the most directly comparable measure under U.S. GAAP. As of March 31, 2020 the company is no longer backing out vendor financed leases from Free Cash Flow and has updated all historical numbers to reflect the change.

Adjusted Free Cash Flow

Adjusted free cash flow is defined as Free Cash Flow from above plus deferred compensation payments, transaction costs, costs related to the Texas litigation, and certain other identified adjustments. We use Adjusted Free Cash Flow, in addition to Free Cash Flow, to provide supplemental information to our investors concerning our ability to generate cash from our ongoing operating activities; by excluding certain deferred compensation costs and our one-time Texas settlement costs, as well as transaction costs and transaction cost tax benefit related to acquisitions and divestitures, we believe we provide useful additional information to our investors to help them further understand our ability to generate cash period-over-period as well as added information on comparability to our competitors. Such as with Free Cash Flow information, as so adjusted, it is specifically not intended to provide amounts available for discretionary spending. We have added certain adjustments to account for items which we do not believe reflect our core business or operating performance, and we computed all periods with such adjusted costs.

Constant Currency

To better understand trends in our business, we believe that it is helpful to adjust revenue to exclude the impact of changes in the translation of foreign currencies into U.S. Dollars. We refer to this adjusted revenue as "constant currency." Currency impact can be determined as the difference between actual growth rates and constant currency growth rates. This currency impact is calculated by translating the current period activity in local currency using the comparable prior-year period's currency translation rate.

Non-GAAP Outlook

In providing the outlook for adjusted EBITDA we exclude certain items which are otherwise included in determining the comparable GAAP financial measure. A description of the adjustments which historically have been applicable in determining adjusted EBITDA are reflected in the table below. We are providing such outlook only on a non-GAAP basis because the Company is unable to predict with reasonable certainty the totality or ultimate outcome or occurrence of these adjustments for the forward-looking period, which can be dependent on future events that may not be reliably predicted. Based on past reported results, where one or more of these items have been applicable, such excluded items could be material, individually or in the aggregate, to reported results. We have provided an outlook for revenue on a constant currency basis due to the inability to accurately predict foreign currency impact on revenues. Outlook for Free Cash Flow and Adjusted Free Cash Flow is provided as a factor of expected adjusted EBITDA, see above. For the same reason, we are unable to provide GAAP expected adjusted tax rate, which adjusts for our non-GAAP adjustments.
